

Apache Wells Homeowners Given The Chance For Change!

Apache Wells homeowners will have the opportunity on January 2, 2008 to vote for a change in the future direction of their community. This year we have 9 candidates to choose from and the 3 candidates receiving the most votes will fill the seats of the 3 current Board members who will be ending their 3-year terms.

The Board of Directors Nominating Committee has chosen to endorse **Sandra Johnson, Don Fourcade and Jim Brockmann** as their candidates.

The AWARE group has chosen to endorse **Sandra Johnson, Don Fourcade and Cheri Whalen** as their candidates. This would lead us to assume that both the Board's Nominating Committee and AWARE agree on which candidates they feel will work the best with the remaining members in continuing the policies and agenda of the current Board of Directors.

SAW has chosen not to endorse 3 candidates as the Board and AWARE have done. We feel that it would be undemocratic to ask a homeowner who wished to run for the Board to not run or step down so as to not dilute the vote. We have taken heat on this issue from some members of the community, but we stand firm on this issue. **Anyone who wants to run for the Board has the right to do so and we are not about to tell them they can't.** The absentee ballots are out there with 9 names and it is up to the homeowners of Apache Wells, in the privacy of their homes or at the polls, to decide who they want to see join the Board of Directors in January.

What we can recommend is that for homeowners who want a change and to see our community move in a different direction, a direction that will be responsive to ALL homeowners, they can vote for 3 candidates who were not endorsed by the Board and AWARE. Those candidates who support changes in the way the current Board operates are shown below. Between now and Election Day January 2, 2008 get to know these homeowners, read their information sheets in the flyer that came with your absentee ballot, attend a candidate get-together or coffee meeting or call them and get their stand on the issues. They want to hear from you and they are all in the Apache Wells Telephone Directory.

Homeowners have really only 2 choices to make when they mark their ballot in the election. They can Vote for the Status Quo (business as usual) or they can Vote for change, equal representation, openness, accountability, fiscal responsibility, free expression, fair treatment and most important of all, a new direction for Apache Wells!
