# Activities

## patches handed (974) - Jan 20. "Reunion Island"

Christophe your referent on Reunion Island organized delivery of patches to our local brothers with pride and emotion.

All this in the "Rock Fish Cafe" which would tend to become Bar Support Wind and Fire TM.

There is more to organize a match with our Bar "The Toril".

They also benefited from a very nice article presenting in the local press recently.

## TV Show "TOUS ENSEMBLE" ("All Together") Mazamet (81) - 24 Jan.

Members of # 136, under the leadership of Francky our National Secretary, attended the show "all together" to help a family in distress on Mazamet.

To summarize: the unclean home, the pregnant woman who had given birth one month later of binoculars, a boy of 6 years and especially the dad with brain cancer.

Francky who attended the preparatory meeting with the presenter Marc Emmanuel. A lot of people to help on site, it was not necessary to be too much on the site. He proposed to the commissioner to make Harley

*baptisms on Mazamet market Saturday, January 24th from 8 am to 13h morning. The idea has the strong interest and has been validated by the managers of the issue. Here are some pictures of this beautiful day at the right cold Tarnais which ended with our beloved snow.*

*15 vehicles, motorcycles, sidecars and trikes day with a very friendly atmosphere and the agreement Tarn 3 clubs for the occasion.*

**Run Provence  
Villemorze (83)  
The 03, 04, 05 and April 6**

*Once again, the Run Provence has kept all its promises. Relocated in the Var after many years to use the eraser in the west, it has had an atmosphere and decor exceptional setting.*

*The tour Saturday morning of a tile factory, being the main activity of the area, left over a stunned member, finding unlikely objects covered with mosaics like a bicycle:*

A sidecar:

Scooter :

And, among others, car and boat:

*With a stop in the famous village Moustiers Sainte Marie, ranked one of the most beautiful villages in France and built under the purest sky of Europe.*

*followed by a small detour to our local bouclard "Dual Mano" or "Old School Workshop Manu".*

*The return is made by the west side of the lake, the Valensole famous but also for its culture and its fields of lavender.*

*The morning ended with a little nature walk in the gardens of Villecroze and its caves.*

*On Sunday, the group left early in the morning, Wind and Fire™, after hanging a "wagon" of guests for a total of sixty motorcycles go for a beautiful ride through Dracénie (country Draguignan) to to the famous "Napoleon road" and lunch in the village of Castellane. The return is made by the Verdon Gorges, which are no less than the second deepest gorge in the world after the "Grand Canyon".*

*After lunch, the convoy, reinforced by the recent arrivals go for a run along the shores of Lake St. Croix.*

*After a souvenir photo of the happy riders, we regained our mobile homes for Rock and Roll evening.*

*Full of energy and good humor, so we arrived on Saturday morning for the official opening of the event ... in the rain! "Not glop" ...*

*This first day remained frozen in "in the rain" mode except that we can not "singer" no! But it was more than that to demoralize us especially as I had prepared with the Metropolis of brothers to cold and clouds. I've still got some new contacts and most importantly, we have been asked to intervene in other current events coming in May, June and November.*

*Congratulations to the # 157, especially at Polo and Lolo for these months of preparation, as well as Road Team Captain / Safety leading the convoy of a master hand.*

*Run Provence will again in the must, marking a milestone the start of the season.*

**Weekend bikers (974) - April 11 and 12  
"Reunion Island"**

*After installing the stand Friday, April 10, we were ready to start this famous weekend.*

*Sunday was more fun. Mass bikers forces, God has thus said "we will give them a little sunshine":-)*

*A very active and informative morning since we have totaled about € 500 sale any items (Tee Shirt, Photo and Don) Also: a report that will go to a local TV and two interviews with local radio stations. We also greatly contacted other motorcycle clubs on our day of May 17 and our future "Toy's Run."*

As a result, some clubs are already engaged in such activities. I hope they take words.

## The Chapters :

Review:

I am pleased with this first impact. Population and clubs have joined. The brothers were present and are motivated. The way is open.

Thank you again support our President and the National Office. With your help (banners, t-shirts, etc.) the implementation was easy and very comfortable.

This is more than respectable.

### Prospect Christophe

This weekend was also the opportunity to look around a nice article on our island Step Brothers:

#### Pompiers + Harley = Wind and Fire MC Réunion Island

Quel est le point commun des dix personnes sur cette photo ? A n'en pas douter, ils aiment la moto. Plus précisément, les Harley-Davidson. Ils sont aussi sapeurs-pompiers. Ce qui a conduit Christophe Pelerin à fonder un club bien spécial, le Wind and Fire MC Réunion Island, première antenne réunionnaise de cette célèbre association de 4500 motards répartis sur la planète. Pour y entrer, il faut être secouriste et biker muni d'une Harley. Ceux qui ne remplissent pas les critères pourront toujours se consoler samedi à la Plaine-des-Cafres. L'association, qui a quelques mois au compteur, occupera une place phare lors du week-end des motards organisé par la ville du Tampon. Les amateurs pourront se balader à bord de leurs mythiques bécanes. Rien de tel pour se mettre en jambe avant le concert de Warfield samedi soir. Les bénéfices seront reversés aux orphelins des Sapeurs Pompiers de France.

### « FOLLOWERS »

You know, recently, the integration of "followers" (follower) became official in affiliated chapters, associate members of the regional sections, they are Harley owners and drivers, and hold a first aid certificate. This Bullinfo # 02 is an opportunity to introduce them.

For information, following the various problems sown by some members of LUTECE #159 at the club and in the territories, the office has asked our international fora to approach them to call them to order.

They seem to have taken the lead and have all resigned from Wind and Fire MC.
