To Whom It May Concern,

Dear Sir or Madame,

RE: Sonja Goesseringer ( May 20, 1954, Age: 60 years )

This woman is currently a patient under my care. She has significant medical illnesses including, but not limited to: Depression, Chronic Fatigue Syndrome, Fibromyalgia, Osteoporosis, Chronic pain, Seasonal Affective Disorder.

These conditions severely and greatly affect the quality of her life in a negative manner. At this time I feel that she requires medical priority for housing especially as her current building has been sold and she has been advised that she must find alternative housing.

Please consider her for urgent housing in an environment where she has a private kitchen and bathroom for medical reasons.

Thank you for your consideration,

Regards,

Dr. Catherine Cameron, MD, CCFP
