**Re: Confirmation of Fair PharmaCare Assistance**

This letter confirms your Fair PharmaCare coverage. Fair PharmaCare helps you with the cost of prescription drugs. If you have drug coverage through a private insurer or your employer, they may ask for this information.

Fair PharmaCare coverage is based on your family's net income. A family can be an individual or a couple (married or common-law), and any dependent children.

If your family structure has recently changed, you may be receiving this letter because we adjusted your coverage to match your new family structure (such as the addition or removal of a spouse). If you applied for an Income Review, this letter confirms your new coverage.

Your new Fair PharmaCare coverage is:

| Year of Assistance | Deductible | Portion of Eligible Costs PharmaCare Pays (once deductible reached) | Family Maximum (after which 100% of eligible costs are covered) |
|--------------------|------------|---|---|
| 2020               | \$0.00     | 70%   | \$100.00  |

**Deductible:** Your deductible is the amount your family pays out-of-pocket towards the costs of eligible prescription drugs and medical supplies every calendar year (from January to December) before Fair PharmaCare begins to pay part of your costs. The deductible amount is based on your family's net income. Families with lower incomes may have a deductible of zero, which means that Fair PharmaCare begins paying part of their eligible prescription drug and/or medical supply costs right away.

**Family Maximum:** To protect you from very high drug expenses, Fair PharmaCare sets an annual maximum that your family must pay for eligible prescription drugs and medical supplies before Fair PharmaCare will pay 100% of eligible costs for the rest of the calendar year.

**Eligible Costs:** Only eligible costs count towards your deductible and family maximum. Fair PharmaCare sets a maximum amount it will cover for eligible prescription drugs, medical supplies, and related services
