

THE ARMY KILLS THE ARMY LIES

**Be the best...
Don't be a paid killer!**

The military are engaged in a propaganda war. Tonight they are here in Watford attempting to con your community into believing that being in the forces is all about learning new skills, travelling the world, being peacekeepers and defending "our" country against an unspecified "enemy". They also pretend that everyone (black/white, male/female, gay/straight) is welcome to join.

- But "being the best" shouldn't involve killing people you have never even met.
- And "being the best" shouldn't mean "protecting our economic interests overseas" through violence.

- "Being the best" does not mean having an equal opportunity to kill!

**Soldiers are trained and paid to be killers.
Pretending they are not is dishonest.**

You may have noticed that we are at war and that British soldiers are deployed at several locations around the world. If you live in Watford, you live just four miles from the military base at Northwood. It is the joint command centre for British forces deployed overseas. The military have made you a target.
Don't believe their hype!

**ALL SOLDIERS ARE POTENTIAL MURDERERS
BUT ALL SOLDIERS ARE ALSO
POTENTIAL DESERTERS!**
