Subject: Wednesday get together-RACES

I am proposing to have our previously mentioned weekly breakfast meeting (and subsequent work party at the EOC for those so inclined) at Georgios this Wednesday the 24th at 9 AM. The breakfasts will rotate the location among the 3 regions. Last time it was in Punta Gorda, the next time (if attendance warrants continuation) will be in West County.

The meeting will discuss planning issues for the upcoming exercise among other things. All RACES members as well as interested parties, to include non-hams, are invited.

For those looking for info on the Wednesday night net, I would like this and subsequent 4th Wednesdays to be dedicated to a Skywarn net, with a follow-on poll of CERT, USCG, Red Cross, DARN amateurs and finally RACES members and visitors. I will leave the conduct of the net and any drill or training the Skywarn Coordinator or other Skywarn members interested in assuming the role.
