

Private Label Cab Manufacturing

In today's competitive economy, Schumacher Elevator has learned the importance of partnerships that help keep costs down, quality up, and product on time to meet the demands of customers and the market place.

As we settle into a new manufacturing facility, we are realizing our true potential to provide services beyond our previous capabilities. Our new technology, space and efficiency has created a setting ideal for offering private label manufacturing to companies looking for such an opportunity.

Schumacher Elevator Company has a reputation for quality work and beautiful, lasting elevator cab designs. We pride ourselves on our craftsmanship, design flexibility, and ability to meet the diverse needs of our customers. From the most basic freight elevators to curved glass luxury passenger elevators, we can match any existing cab or design idea you have. From preliminary engineering to final production, Schumacher Elevator has the experience and equipment necessary to manufacture any cab application your company needs.

If you're interested in learning more about the private label opportunities Schumacher Elevator Company has to offer you, give us a call. In today's economy the businesses that work together are the ones that get ahead. Explore how private label manufacturing can give you a competitive advantage.
