

Caribbean Casual
Calypso Ball

Who We are

Morning Star Fishermen, of Dade City, Florida, is a Not-for-profit, Non-denominational, Humanitarian Organization, founded by Hans & Sigrid Geissler in 1993. Its purpose is to fight world hunger by teaching basic aquaculture and hydroponics with regards to developing a self-sustaining food source, locally, in Third World Countries, or wherever the need exists.

Our Mission

To provide training to individuals and organizations that are fighting world hunger, in basic fish farming techniques, so that communities around the globe will become self sufficient. We do this at our training center right here in Dade City. We will also be taking on the tasks of building fish farms in areas of great need, such as Haiti, where we have established our first full training center, Dominican Republic, Africa, Cuba, Mexico, Jamaica, and India - where we are planning future trips, as well as our local area and country.

Our Event

We will have our 2nd annual Caribbean Calypso Ball on March 20, 2004, from 7PM-11PM, hosted by Lake Jovita Golf & Country Club. This will be a night to remember so...

Come and enjoy the breeze and the sand
And dance to the sounds of the steel drum band.
No ties or designer ball-gowns please. . .
Because we're going fishing to put world hunger at ease.

The food will be prepared with island flair by the fabulous chefs at Lake Jovita. We will have a live auction and silent auction, music, all for the benefit of fighting world hunger. All the proceeds will go to Morning Star Fishermen - to teach the hungry to feed themselves. Let the whole world see how generous and humane our community can be. Take the time to select a level of support, which will fight world hunger.
