

THE NORROENA SOCIETY

Our Collective Goals

1. To reprint and publish the original sixteen volumes of the Norroena Library collected by Rasmus Anderson.
2. To host a forum for scholars and Odinists alike to share and debates various topics on the Teutonic traditions.
3. To publish a series of works for Odinists, by Odinists focused on the re-establishment of each of the twelve fundamentals of Odin's culture: Lore/Theology, Pantheon, Prayer/Rital, Folk/Ancestry, Law, Nature, Diet, Music, Dance, Magic and Arts and Crafts. This shall begin with a new, purely heathen Edda.
4. To set up guilds devoted specifically to the study of each of these twelve fundamentals.
5. To build two separate, yet synergetic, divisions of the Society: one made up of scholars and students devoted to a higher understanding of the Teutonic path and the reconstruction of its sacred traditions, and another focusing on the religious practice of the Odinist faith.
6. To build and establish The Norroena Institute, a center of higher learning for Odinic scholars and a place for Odinists to gather, share information, celebrate holidays, etc.
7. To make available the latest in cutting edge research on the Odinist faith, unfettered by the Christian biases and restraints of the mainstream academia. This will come in the form of expansions of our website and eventually books that we hope to publish.
8. To continue a tradition of higher standards for the recreation of the Odinic hierology, with which we hope to eliminate the Christian stains upon our religion forever.
