*And we are
members of the
CPCU Society*

CPCUs are the standard setters of the insurance industry. They pass rigorous undergraduate- and graduate-level examinations, meet industry experience requirements, and abide by a strict code of professional ethics. CPCU Society members go even further, participating in national and chapter activities that expand their base of insurance knowledge and allow them to give something back to their community. They are your friends, neighbors, co-workers, and relatives. Learn more about the local CPCU Society chapters in your community at www.cpcusociety.org.
