

**All This Love** (*Track 2 on "Live at the Mars Hotel - Volume Four"*)

Well good morning baby there's nothing to hide  
Got to keep running there's love on your side  
Ain't no reason for you to be blue  
Love is forever gonna keep coming through  
Every morning and every night  
Keep on chasing me into the light  
Just wanna shout about the love that I feel  
Keep coming home to you for something so real

And there's all this love (Just wanna shout about it)  
All this love

And there's all this love (Just wanna shout about it)  
All this love

Heart of the matter there's something to know  
Every reason to do nothing but grow  
Just think about it I'll tell you just where to start  
All you've got to do is just open your heart

And there's all this love (Just wanna shout about it)  
All this love (Ain't no doubt about it)  
And there's all this love (Just wanna shout about it)  
All this love
