of  
Arboriculture

The National Arborist Association (NAA) is the non-profit national trade association whose mission is to promote the interests of commercial tree care professionals worldwide.

Established in 1938, NAA has been an excellent resource of knowledge for the industry. NAA develops a wide range of tree care safety and training programs, standards of tree practice and business management programs to assist professional arborists with successful and proper training of their employees.

This Rigging for Removal Video Series was co-sponsored by:

Yale Cordage  
Sierra Moreno Mercantile

Other valuable NAA programs related to this video include:

- Chain Saw Video Series**  
... tips on basic saw selection and maintenance plus demonstrations of proper operation of the saw while climbing, working in a lift, limbing, bucking, etc.
- Ropes, Knots & Climbing Video**  
... our expert tree climbers demonstrate techniques and equipment that your crews can apply every day to increase safety and productivity
- Tailgate Safety Program**  
... contains 60 short, informative sessions, reproducible handouts, quiz questions and training documentation forms. Designed to be used in the field - a great foundation for your employees' safety training!
- Climber's Guide to Hazard Trees**  
... an easy-to-read pocket manual that defines and illustrates the common man-made and natural hazard conditions found in trees. Also available in Spanish.

For more information about these programs or the many other benefits associated with the National Arborist Association, please call toll free: 1-800-733-2622
