DR LIN HAI PENG

VISIT ID: I015218184 601-03

Diagnosis:  
Haemophagocytic Lymphohistiocytosis (HLH),  
of Cerebro-meningeal type, complicated  
by Macrophage Activation Syndrome (MAS)

The above patient has the above rare disease  
for which she is now treated in the  
Intensive Care Unit (ICU) of SJMC.

This disease carries with it a high risk  
of mortality without Bone Marrow Transplantation  
donor (MUD) (BMT).  
An allogeneic unrelated BMT needs to be  
done.

The entire cost of her treatment including  
the MUD BMT is estimated to be about  
RM 200,000/-.
