*ISLAS is a publication dedicated to Afro-Cuban issues. It is part of a larger project named Afro-Cuban Alliance (ACA), a non-partisan, not-for-profit, charitable and educational organization in existence since May 2005, based and incorporated in the State of Florida.*

*ISLAS seeks to inform Cubans of African descent on the island and abroad about civil rights, the hidden history of slavery, racial discrimination in Cuba, and the experience of civil rights movements.*

*To ensure a broad spectrum of perspectives and promote a public discussion, we seek to receive articles from Afro-Cubans, individuals of African descent throughout the world, and other interested persons to better gain their perspectives and experiences on the status of African descent populations in their countries and the struggles they have faced.*

*ISLAS accepts articles related to history, art, literature, religion, folklore, contemporary issues, and essays/studies. All the articles reflect the opinion of the authors.*
