

# ***Life Healing Community***

## ***A Sacred Holy Place of Spirit imbued since ancient times with the Power of Creator to heal all dis-ease of body mind and spirit.***

*Nestled in the Ozark Mountains surrounded by virgin forests lies a sacred place known to ancient peoples and healers as an energetic vortex of healing. This holy place was honored and many healings of all kinds were given to peoples throughout the ages here. But as time went on and the ancient peoples moved away from this place it was forgotten, until now.*

*Once again Creator has seen fit to let this holy sacred land be brought back into the world publicly for the healing, restoration and joy of each man, woman and child around the world.*

*Every single person who has come here seeking healing in any way has received it directly from the Power of this sacred place. Miracles of cured cancers and tumors and heart disease and arthritis and emotional disorders and incurable diseases are occurring here now, in our day.*

*You are welcome to come and visit this sacred land. It belongs to you. Come with the desire to receive whatever healing you are seeking and it will be given to you.*

*On site lives the custodian of this sacred land, a traditional indigenous Shaman, Elder Maggie Wahls who will greet you and ensure your visit is wonderful in every way. You can contact her through the LHC website at [www.lifehealingcommunity.com](http://www.lifehealingcommunity.com)*

*A continuous celebration and events are taking place here including drum circles, council fires, stories, songs, workshops, lectures and round table discussions. You are welcome to participate!*

AHO!  
(Yaqui meaning "I speak my truth")
