### **Advice to Republicans: Dump Trump**

Trump is a loser, having lost overwhelmingly in 2020. Trump has a lifelong history of losing: He and father Fred were guilty of racial discrimination in apartment renting.

Donald lied on his casino application, and was fined \$200,000 for racial and sexual discrimination against casino employees.

During 1980-2000 Trump lost about \$1,000,000,000 for investors in his bankrupt Taj Mahal casino, Trump Airlines, football team, Trump Univ., and other failures. Trump carries huge debts and faces incredible court fines and legal costs.

During his presidency Trump stirred up political polarization and racial hatred, gave tacit encouragement to alt-right extremists, and soured our world reputation and NATO.

Trump has been convicted of raping and slandering E. Jean Carroll. Many other women have accused him of sexual assaults. Trump has been indicted for paying hush money to two porn stars with whom he committed adultery.

Trump has been convicted of tax fraud (CEO Allen Weisselberg and lawyer Michael Cohen went to jail). Trump fraudulently misstated the valuation of his properties; for this crime Trump can no longer do business in New York State.

The Washington Post awarded Trump tens of thousands of Pinocchios for lying.

Trump's biggest lie was/is his claim of massive election fraud in 2020, despite recounts and judicial inquiries proving otherwise. All the fraud was done by Republicans!

Trump and his coconspirators face myriad felony indictments over their attempts to overthrow the 2020 election, the January 6 insurrection, and Trump's mishandling of classified documents.

Any morally and religiously upright person cannot in good conscience vote for Trump or for any politician who supports Trump.

Republicans, return to your legitimate conservative principles. Dump Trump!
