

Contents

<i>Preface</i>	vii
<i>Acknowledgements</i>	x
1 Disorderly Signposts <i>business success • socially responsible capitalism • leadership and change • excitement of entropy • signposts to chapters</i>	1
2 Planck's Inspiration: Nature, Philosophy and Business <i>Ockham's razor • Mother Nature • an engineering excuse for inefficiency • free energy? • the way you like it and for nothing</i>	8
3 Life, the Universe and Entropy <i>vectors, pool tables and Isaac Newton • forces for change • inflation and pollution • physics and information • Isobel's message • Maxwell's demon</i>	18
4 The Entropy Vector <i>uniting entropy and vectors • sailing boats • Boltzmann index • lost in Bilbao and queuing in Detroit • taking control by letting go</i>	34
5 Energy and Entropy <i>scattering the seed • organic companies • exergy conservation • energy management</i>	50
6 Time and Entropy <i>who created God? • entropy as the arrow of time • time management • bored in transit • information flows • optimised production</i>	65
7 Managing Disorder <i>good management techniques • teams and training • flat-lining • control freaks • pantomimes and orchestras • change and risk</i>	83

8	Creativity and Innovation <i>what is creativity? • what is innovation? • harnessing them in business • technology trajectories • woolliness, bananas and knots • entropy and technopy</i>	102
9	Risk and Entropy <i>ontRe-pRenur • winning the risk game • boundaries and vision • sins of omission/commission • elephants, rabbits, barbecues and the cost of grass</i>	124
10	Mental Entropy <i>education and training • memory and analysis • efficiency, effectiveness and distinctiveness • diversity of skill and attitude • employee and team skills • science and measurement</i>	139
11	Entropy Trade-offs <i>power packs and technology vectors • labour market, incentives and equilibrium • improbable happenings</i>	154
12	The Entropy Tool Kit <i>summary • pulling it all together • ideas and tools</i>	173
	<i>Index</i>	178
