Subject: OPERATION DESERT ROCK III

In conducting Operation Desert Rock III this headquarters was required to leave incomplete positions #1 and #2 due to contamination. It is planned to enter this area around the 20th or 21st of January for evaluation and removal of equipment.

Before removal of equipment, photographs should be taken for the final report on Desert Rock III. Information is requested as to whether you can furnish photographers for approximately the 21st of January. The exact date can be furnished you by teletype. An early answer will be appreciated.
